DETAILED ACTION

Allowable Subject Matter

1. Claims 1, 3-15, and 17-40 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record fails to teach or make obvious the step of or means for **“comparing the waiting time of an oldest packet in a current frame to the frame-release threshold”**, when the comparing is considered within the specific structure of the method recited in claim 1 or the device recited in claim 15. The prior art of record fails to teach or make obvious the step of or means for **“the estimated current packet waiting time corresponds to an interval of variation in packet transit time over the network; the variation measure corresponds to jitter in the packet transit time; and the out-of-sequence error corresponds to additional waiting time due to the presence of the out-of- sequence packet”**, when such time, measure and error are considered within the specific structure of the method recited in claim 27 or the device recited in claim 34. The prior art of record fails to teach or make obvious the step of or means for **“updating the first threshold value based on the estimated current packet waiting time, the variation measure, and the out-of-sequence error, wherein, the first threshold value $T(i)$ is set to**

T_{min} if $b(i) + \mu v(i) + e(i) \leq T_{min}$;

if $b(i) + \mu v(i) + e(i)$, if $T_{min} < b(i) + \mu v(i) + e(i) < T_{max}$; or

T_{max} if $b(i) + \mu v(i) + e(i) \geq T_{max}$, wherein:

$b(i)$ is the estimated current packet waiting time;

$v(i)$ is the variation measure;

$e(i)$ is the out-of-sequence error;

μ is a first weighting coefficient;

T_{min} is a lower limit; and

T_{max} is an upper limit", when such threshold value is considered within the specific structure of the method recited in claim 29 or the device recited in claim 36.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
